

# Community Tool Box WorkStations

## Meet your group's needs for online community collaboration.

We develop tailored online WorkStation websites for local and national initiatives.

WorkStations enable users to easily share materials, make announcements, access tools, learn from others' success stories, access guidance from peer discussions and solve needs for online collaboration.

Customized WorkStations help communities increase productivity and work together to meet their shared goals.

## Customizable features include:

- Document Sharing
- Announcements
- Calendar
- Online Discussion
- Project Management
- Instant Messaging
- Wikis
- Blogs
- Surveys
- Photo Galleries
- Ask an Advisor
- Success Stories
- Capacity Building Tools
- Online Documentation & Support System for evaluation

### Basic Setup Package

- Secure hosting environment
- Initial basic setup consultation
- Unique myctb.org address (URL)
- Help materials for administrators and users

### Custom Design & Support Package

- Secure hosting environment
- Initial setup consultation including full customization of your WorkStation
- Customizable web address (URL)
- Help materials for administrators and users
- Up to 10 hours of additional support with technology and consultation on maximizing the WorkStation features.

An Online Documentation & Support System for monitoring and evaluation is available for a negotiated annual fee, depending on the desired level of documentation and evaluation support.
